

## **Managing Cybersecurity / IT Risks in Private Equity and M&A**

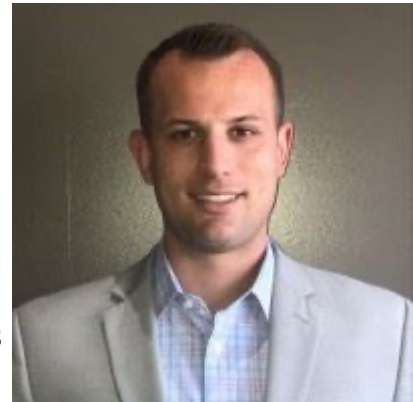

July 13, 2021  
11:00 - 12:30, online

Program and Networking

Cybersecurity and IT is a dynamic risk companies need to manage that includes people, processes, technology and cost. Ntiva has designed an exercise to benchmark companies and portcos current IT posture and provide a roadmap to achieve best practice standards so everyone can sleep at night.

*Presenter*

**Jake Gregorich** heads up the Private Equity and M&A technology consulting practice at Ntiva. Ntiva is a managed IT and consulting company who internally performed their 10<sup>th</sup> add-on acquisition in the last three years. They deliver this same pace and level of expertise externally to their PE/M&A clients. Jake and his team listen to their PE/M&A clients to create and deliver unique technology solutions that drive EBITA and investment multiples by limiting risk, automating and improving processes, and cutting waste.
